DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-11 having particulars of the variable impedance circuits of claims 3 and 6, drawn to a variable gain differential amplifier, a variable impedance circuit, a multiplier, and a high frequency circuit classified in class 330, subclass 254.
- II. Claims 12 and 13-19 drawn to a high frequency circuit and a differential distributed amplifier, classified in class 330, subclass 252 and 53.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the high frequency circuit and the differential distributed amplifier does not require the particulars of the variable impedance circuits of claims 3 and 6. The subcombination has separate utility such as a variable impedance circuits for any electronic system.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. Becker on 12/9/2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patricia T. Nguyen whose telephone number is (703) 308-1927. The examiner can normally be reached on 6:30 AM - 5:00 PM.
